***Examiner's Amendment***

1. An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment maybe filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Pursuant to MPEP 606.01, the title has been changed to read:

-- A WEB BASED EMAIL CONTROL CENTER FOR MONITORING AND PROVIDING A SUMMARY OF THE DETECTED EVENT INFORMATION ORGANIZED ACCORDING TO RELATIONSHIPS BETWEEN THE USER AND NETWORK SITES --

3. Claims 68-72, 74-79 and 81-92 are allowed.

4. The following is an examiner's statement of reasons for allowance:

In interpreting the claims, in light of the specification and the applicant's arguments filed on 08/16/2004, the Examiner finds the claimed invention to be patentably distinct from the prior art of record.

Gabber-Pepper teaches the invention substantially as claimed. Gabber-Pepper teaches a system and method for detecting and accumulating event information corresponding to online events and presenting presentation information corresponding

to the online events to a user (see Gabber, C12: L19-44 and C13: L33-37). Gabber-Pepper also teaches a system and method for automatically screening and directing incoming events, such as telephone calls, emails, faxes and the like (i.e., alerts corresponding to notifications) to a communication services subscriber, wherein the subscriber maybe notified by an interactive GUI pop-up window (i.e., a message window) displaying a list of new pending messages (i.e., a summary of accumulated event information) (see Pepper, Figs. 7 and 10-11, C3: L12-17 and C8:L35 – C9:L11).

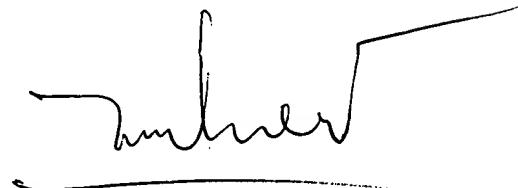

However, the prior art of record fails to teach or suggest individually or in combination that a system and method of presenting presentation information to a user corresponding to the accumulated event information, ***wherein the presentation information comprising a summary of the event information (or the summary of the detected status changes according to the user accounts) organized according to relationships between the user and the plurality of network sites, the presentation information being presented in a message window*** while the user is accessing the network utilizing a browser application as set forth in independent claims 68, 76, 83 and 88. Claims 68-72, 74-79 and 81-92 are allowed because of the combination of other limitations and the limitation listed above.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
